DETAILED ACTION***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 7-41 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims:

- 1-221 of U.S. Patent No. 6,592,586
- 1-20 of U.S. Patent No. 6,926,718
- 1-39 of U.S. Patent No. 6,936,050
- 1-39 of U.S. Patent No. 6,936,051
- 1-220 of U.S. Patent No. 6,527,776
- 1-124 of U.S. Patent No. 6,454,771
- 1-117 of U.S. Patent No. 6,398,783

Art Unit: 3733

- 1-25 of U.S. Patent No. 6,139,550
- 1-173 of U.S. Patent No. 6,193,721

Although the conflicting claims are not identical, they are not patentably distinct from each other because the difference between the claims of the instant application and that of those listed lies in the fact that the patent claims include more elements and is thus more specific. Thus the invention of the patents are in effect a "species" of the "generic" invention of claims 7-41 in the application. It has been held that the generic invention is "anticipated" by the "species." See *In re Goodman*, 29 USPQ2d 2010 (Fed. Cir. 1993).

Claims 7-41 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims

- 1-20 of copending Application No. 11/110,161
- 31-44, 174, 175, and 232-245 of copending Application No. 10/160,059
- 1, 3-8, 11-18, 20-24, 26-60, 65-81, 199-215, 217-237, 242-252, 254-256, and 261-363 of copending Application No. 10/160,247
- 1-8, 11-75, 183-188, 190-193, 195-197, 201-241, and 244-277 of copending Application No. 10/160,407.

Although the conflicting claims are not identical, they are not patentably distinct from each other because the difference between the claims of the instant application and that of those listed lies in the fact that the other applications, the claims include more elements and is thus more specific. Thus the invention of the patents are in effect a "species" of the "generic" invention of claims 7-41 in the application. It has been held

that the generic invention is "anticipated" by the "species." See *In re Goodman*, 29 USPQ2d 2010 (Fed. Cir. 1993).

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Conclusion

Applicant's amendment of canceling claims 1-6 and adding 7-41 of new scope necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
